Education

University of Massachusetts   **Amherst, MA, USA**
M.S. in Computer Science, 3.96 GPA   *September 2022 - December 2023*

University of Washington   **Seattle, WA, USA**
B.S. double major in Computer Science and ACMS, 3.82 GPA   *September 2016 - March 2019*

Publication

- **Yuhong Luo**, Austin Hoag and Philip S. Thomas. Learning Fair Representations with High-Confidence Guarantees.
  In Submission. arXiv preprint arXiv:2310.15358, 2023. [pdf]

- **Yuhong Luo** and Pan Li. Neighborhood-aware Scalable Temporal Network Representation Learning.
  In *Learning on Graphs*, 2022. **Oral (4.6%)**, **Best Paper Award**. [pdf]

Talk

- Invited to present my work on **Temporal Graph Learning** at *Stanford* (in person), and at the *Temporal Graph Reading Group* (online) hosted jointly by *McGill University, Mila, and University of Mannheim*. [▶ Recording]

Experience

UMass   **Amherst, MA, USA**
Graduate Researcher with Prof. Philip Thomas *on Fair Representation Learning* (repo)   *February 2023 - September 2023*
- Created a framework that offers **high-confidence fairness guarantees** for representation learning (paper submitted).

Graduate Researcher with Prof. Hui Guan *on Personalized Federated Learning* (repo)   *September 2022 - December 2022*
- Created an algorithm for personalized federated learning under **statistical heterogenity**.

Georgia Tech   **Remote**
Partime Research Intern with Prof. Pan Li *on Temporal Graph Learning* (repo)   *May 2021 - August 2022*
- Created a **temporal graph neural network** that improves SOTA expressiveness and efficiency (paper published).

Airbnb   **San Francisco, CA, USA**
Software Engineer   *July 2019 - September 2022*
- Built **personalized marketing content recommendation** models.
- Designed and implemented marketing content building and campaign publishing tools.
- Designed and implemented coupon management and issuance platform.

UW   **Seattle, WA, USA**
Undergraduate Researcher with Prof. Jan Buys *on Natural Language Processing* (repo)   *January 2019 - March 2019*
- Designed and implemented a graph learning algorithm to incorporate **semantic graphs** of sentences as input to **LSTM**.

Teaching Assistant with Prof. Martin Tompa *on Foundations of Computing II*   *September 2018 - March 2019*
- Held teaching sessions on topics including probability, statistics, randomized algorithms, introductory ML.

Meta   **Seattle, WA, USA**
Software Engineer Intern   *July 2018 - September 2018*
- Implemented crawler for ads landing pages.
- Designed algorithm for ads detection on landing pages.

Yahoo   **San Francisco, CA, USA**
Software Engineer Intern   *July 2017 - September 2017*
- Designed and implemented web services to power Sports App game alerts.

Technical Skills

Languages: Java, Python, C++, C, Ruby, SQL, Kotlin, php, JavaScript.
Technologies: Deep Learning, NLP, Vision, Statistics, Graphical models, Reinforcement Learning.
Frameworks: PyTorch, TensorFlow, React, Spark.
