Education

Rutgers University

Ph.D. Student in Computer Science, GPA: 4.0/4.0

New Brunswick, NJ

Sep. 2024–Present

University of Massachusetts Amherst

M.S. in Computer Science, GPA: 3.97/4.0

Amherst, MA

Sep. 2022–May 2024

University of Washington

B.S. in Computer Science and Applied & Computational Mathematical Sciences, GPA: 3.82/4.0

Seattle, WA

Sep. 2016–Mar. 2019

Research Interests

Agentic AI; Mechanisms for LLM collaboration; Responsible AI: interpretability, robustness and fairness; Algorithmic game theory.

Publications

- **Decentralized Aggregation of LLM Predictions via Wagering Mechanisms.**

Yuhong Luo, David M. Pennock, and Xintong Wang.

Conference on Neural Information Processing Systems (NeurIPS), 2026. [arXiv] [code/data]

- **Algorithmic collusion at inference time: A meta-game design and evaluation.**

Yuhong Luo, Daniel Schoepflin, and Xintong Wang.

International Conference on Autonomous Agents and Multiagent Systems (AAMAS), 2026. [arXiv] [proceedings] [code/data]

- **Fair Representation Learning with Controllable High Confidence Guarantees via Adversarial Inference.**

Yuhong Luo, Austin Hoag, Xintong Wang, Philip S. Thomas, and Przemyslaw A. Grabowicz.

Conference on Neural Information Processing Systems (NeurIPS), 2025. **Scholar Award.** [arXiv] [code/data]

- **Scalable and Efficient Temporal Graph Representation Learning via Forward Recent Sampling.**

Yuhong Luo and Pan Li.

Learning on Graphs Conference (LoG), 2024. [arXiv] [code/data]

- **Neighborhood-aware Scalable Temporal Network Representation Learning.**

Yuhong Luo and Pan Li.

Learning on Graphs Conference (LoG), 2022. **Best Paper Award.** [arXiv] [code/data]

Workshops

- **Decentralized Aggregation of LLM Predictions via Wagering Mechanisms.**

Yuhong Luo, David M. Pennock, and Xintong Wang.

ICML: AI Forecasting Workshop, 2026. **Spotlight**; also presented at EC: Game Theory and Mechanism Design with Large Language Models and Marketplace Innovation Workshop (MIW). [arXiv] [code/data]

- **Algorithmic collusion at inference time: A meta-game design and evaluation.**

Yuhong Luo, Daniel Schoepflin, and Xintong Wang.

EC: Game Theory and Mechanism Design with Large Language Models; Marketplace Innovation Workshop (MIW), 2026. [arXiv]

Preprints

- **Decentralized Aggregation of LLM Predictions via Wagering Mechanisms.**

Yuhong Luo, David M. Pennock, and Xintong Wang.

In submission, 2026. [arXiv]

- **Can LLM Agents Simulate Dynamic Networks? A Case Study on Email Networks with Phishing Synthesis.**

Siqi Miao, Ziyang Chen, Yuhong Luo, Hans Hao-Hsun Hsu, Mufei Li, Kaiqing Zhang, and Pan Li.

In submission, 2026. [arXiv]

Experience

Rutgers University

Graduate Researcher with Prof. Xintong Wang; AI and economics

New Brunswick, NJ

Sep. 2024–Present

University of Massachusetts Amherst

Graduate Researcher with Prof. Philip Thomas; fair representation learning

Amherst, MA

Feb. 2023–Sep. 2023

Graduate Researcher with Prof. Hui Guan; personalized federated learning

Sep. 2022–Dec. 2022

Purdue University & Georgia Tech

Part-time Research Intern with Prof. Pan Li; temporal graph learning

Remote

May 2021–Aug. 2022

Airbnb

Software Engineer, Marketing Technology

San Francisco, CA

Jul. 2019–Sep. 2022

– Built personalized marketing-content recommendation models and internal tools for content authoring, campaign publishing, and coupon management and issuance.

Meta	Seattle, WA
<i>Software Engineer Intern, ads detection on landing pages</i>	<i>Jul. 2018–Sep. 2018</i>
Yahoo	San Francisco, CA
<i>Software Engineer Intern, web services for game alerts</i>	<i>Jul. 2017–Sep. 2017</i>
University of Washington	Seattle, WA
<i>Undergraduate Researcher with Prof. Jan Buys; natural language processing</i>	<i>Jan. 2019–Mar. 2019</i>
– Designed and implemented a graph-learning algorithm that incorporated sentence-level semantic graphs into an LSTM.	

Invited Talks

- Temporal graph learning, Stanford University; Temporal Graph Reading Group hosted jointly by McGill University, Mila, and the University of Mannheim. [recording]

Awards

- NeurIPS 2025 Scholar Award; LoG 2022 Best Paper Award.

Services

- Conference reviewer: EC 2025/2026; ACL Rolling Review 2026; NeurIPS 2026; ICLR 2027.
